

Some dinosaurs...

Some dinosaurs

“STOMP”

Some dinosaurs

ROAR

Some dinosaurs

CHOMP

...and some dinosaurs

SOAR

Some dinosaurs were as tall as a tree...

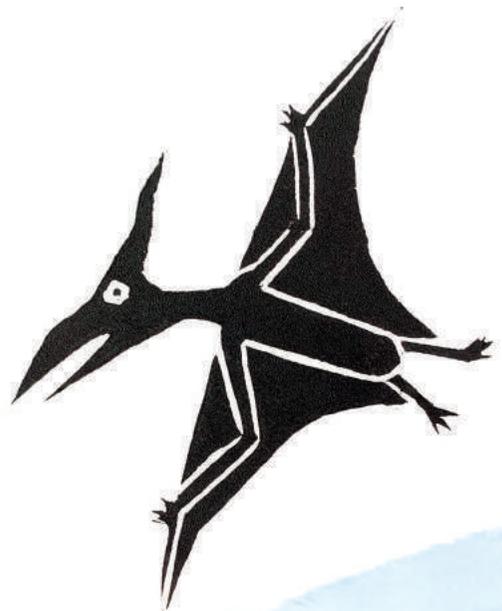

...and others liked to swim in the sea.

With three horns on their head and as long as a bus,
Triceratops munched plants from dawn through to dusk.

Tyrannosaurus Rex could smell food from far away,
Small arms didn't stop them from catching their prey.

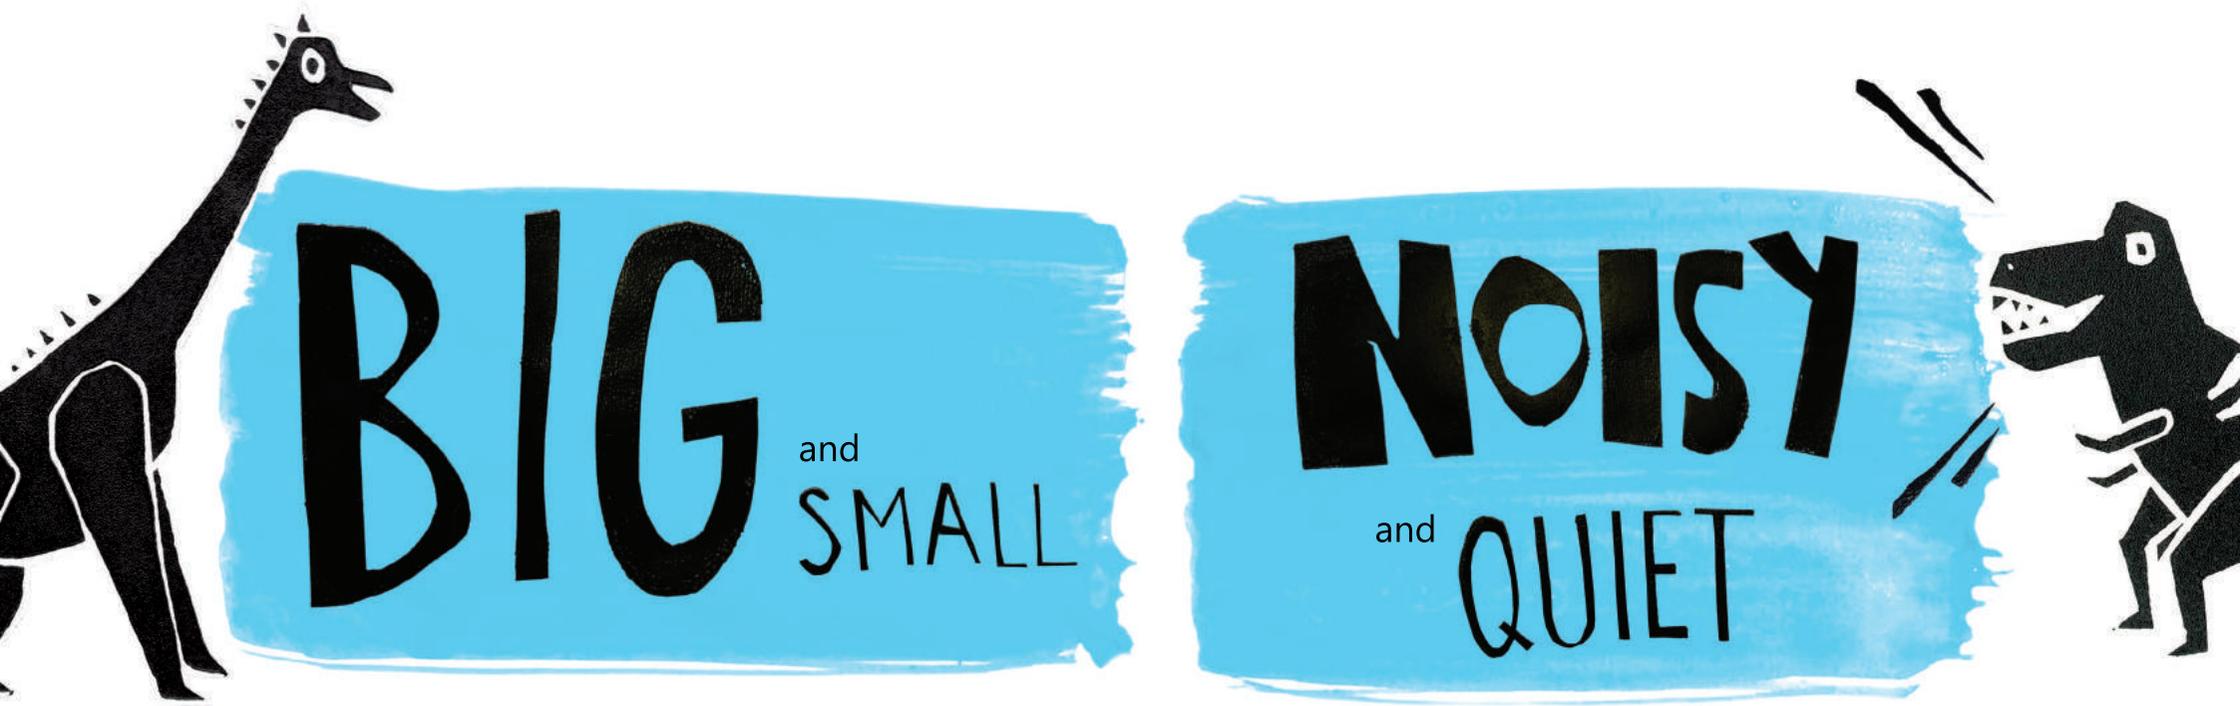

Pterodactyls spent their time flying high,
gliding and diving all over the sky.

Diplodocus with a long neck and huge tail,
Reaching high in the trees, they munched leaves without fail.

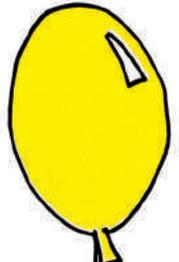

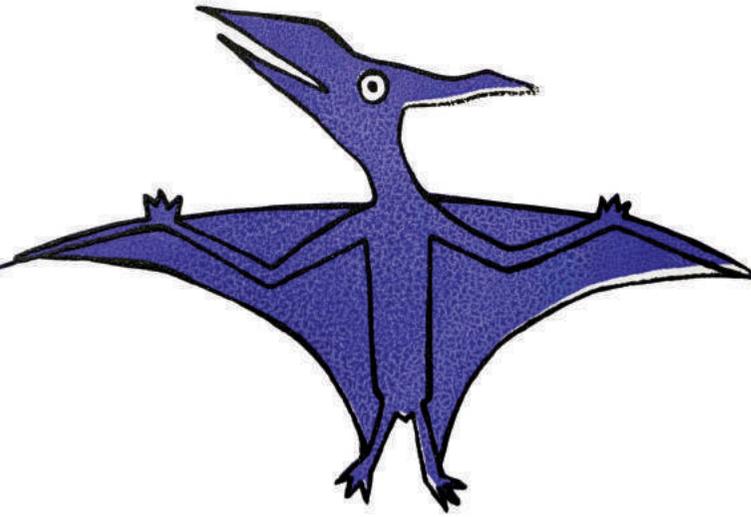

Dinosaurs taught us there is room for everyone...

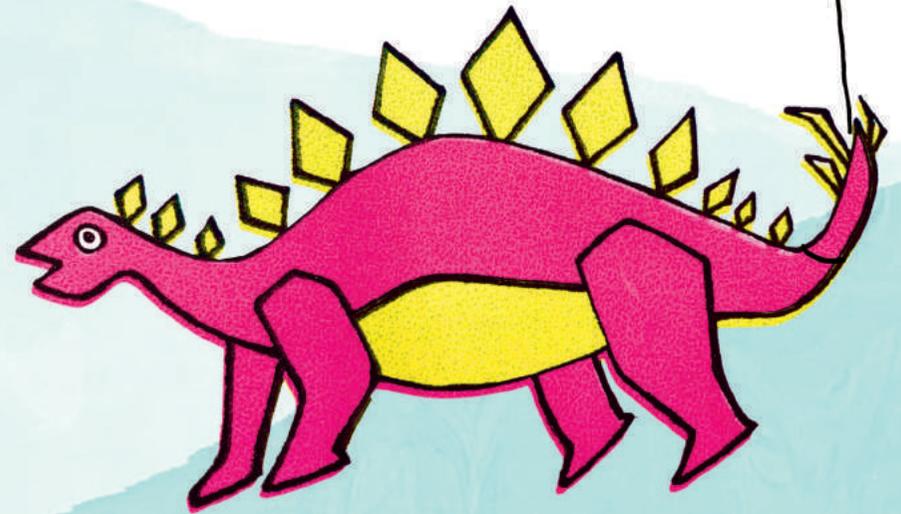

...it doesn't matter how we look, talk, think or grow!

So whether we can sing, walk,
jump, wheel, dance or run...

...we are all good at something –
and that is having lots of fun!

We're all different and special, so let's celebrate and state...

I'M ME, YOU'RE YOU,
WE'RE ROARSOME,
WE'RE GREAT.
