Reaching diverse and under-represented groups

The Equal Treatment Project

- Thank you to the 15 PCFs who took part in open and honest conversations to identify where black, Asian and minority ethnic families were under represented in parent carer participation and explore actions to take
- Training rolling out – based on practical shared experience of forums

Annual report

- We will revise the questions next year
- Collecting data on who we are and are not reaching enables us to paint a true picture of how representative parent carer forums are and to grow
